

## ACTIVATING AND UPDATING YOUR NAVIONICS CHART

WHY

### DAILY UPDATES

We constantly enhance our charts with new and amended content from official hydrographic sources, public and private surveys, and millions of contributions from boaters.

Even one small change can make a big difference—we make more than 5,000 per day. We redraw shorelines, refine bathymetry, update Notices to Mariners and marine protected areas, and integrate changes to navigational aids, marinas, docks, boat ramps, reefs, rocks, wrecks, and fish attractors.

### THE NAVIONICS SUBSCRIPTIONS

When you purchase any new product, a one-year subscription to daily updates and many advanced features is included.

#### GPS Plotter Cards

- Download of chart layers
- Daily Updates
- Dock-to-dock Autourouting<sup>1</sup>
- Advanced Map Options
- Plotter Sync

#### Mobile App

- Download of chart layers
- Daily Updates
- Dock-to-dock Autourouting<sup>1</sup>
- Advanced Map Options
- Weather & Tides
- AIS
- GPX Import/Export
- Plotter Sync
- Satellite Overlay with SonarChart™ Shading

### ACTIVATE YOUR SUBSCRIPTION WITH PLOTTER SYNC

From your boat, you can activate your Navionics plotter cards to enable daily chart updates and advanced features. You can also renew your plotter card subscription for another year.

If you've done Plotter Sync before, you can renew directly from the app whether connected to the plotter or not. Just go to Menu > Device Connected.

Otherwise, read the instructions on the back.

# ACTIVATING AND UPDATING YOUR NAVIONICS CHART

# HOW TO

1

## DOWNLOAD THE BOATING MARINE AND LAKES APP

Conveniently scan the provided QR Code.

Note: The subscription is NOT compatible with older apps.

## SIGN IN

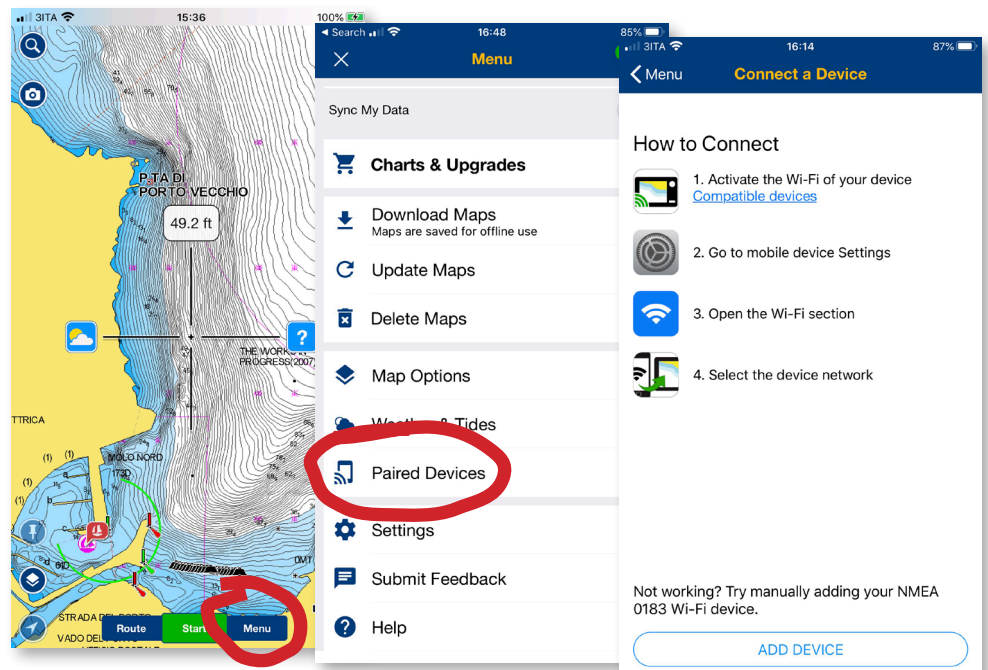

Sign in with the same account used for purchasing.

2

## PAIR YOUR GPS PLOTTER WITH THE BOATING MARINE AND LAKES APP

Go to MENU > PAIRED DEVICES and follow the instructions

3

## ACTIVATE, UPDATE & RENEW YOUR PLOTTER CARD

To enable chart updates and advanced features. Active subscriptions and matching regions are required on both the plotter card and the app.
